

# STRATEGIC PLAN

# STOCKHOLM UNIVERSITY OF THE ARTS, SKH 2024–2027

# VISION

Stockholm University of the Arts is a leading international university where artistic education and research create the conditions for the arts as dynamic, challenging and independent forces in society.

# EDUCATION

## We will:

- promote high quality by offering an attractive learning environment characterised by excellence where student input and influence, different skills and backgrounds are valued.
- ensure that our students' learning is central to their educational programme, including interdisciplinary and co-creative education paths.
- have an open learning environment characterised by international perspectives that provide the conditions for developing artistic energy, initiative and courage.
- ensure that our students carry knowledge with them so that they can contribute to the development of society and take pride in their time at SKH.
- ensure that research results and new approaches improve the quality of education.

# ARTISTIC RESEARCH

## We will:

- ensure a robust research environment, closely linked to education and artistic practice, characterised by international relevance, visibility, openness, sustainability and an ethical foundation.
- drive the development of co-creative artistic research that takes risks, is courageous and forward-looking.
- conduct pioneering research that pushes boundaries and shapes new realities.
- strengthen the conditions for transdisciplinary research projects.
- share our research, its processes and results and demonstrate that artistic research strengthens society and its democratic resilience.

# ENGAGING WITH SOCIETY

## We will:

- be an active player in society, reflecting, challenging and helping to shape society through the arts.
- drive the development of education and research through mutually strategic national and international collaborations.
- construct forms of dialogue, networking and skills development for alumni and professional artists.
- promote the reciprocal exchange of education and research processes and results in open forums.
- strive to increase our share of external finance and expand on the sources of funding.

# SKH TOGETHER

## **We will:**

- promote a culture that is generous and characterised by co-creation, trust, commitment and responsibility.
- strengthen an attractive and equal working and study life where different perspectives are vital and where co-workers and students are given space for dialogue and reflection.
- work towards sustainability, considering environmental, social and economic aspects.
- ensure that the continuous development of SKH is enriched by competences that include different perspectives and skills.
- prepare SKH so that synergies will be achieved when we relocate together.
