Course Content

The course includes training in the circus discipline of tight wire. It covers principles of sustainable training, risk analysis in training, structuring exercises, and discussions on aesthetic expression.

Forms of teaching

Teacher-led instruction, practical exercises, workshops, independent study.

Learning objectives

Upon completion of the course, students should be able to:

1. demonstrate an understanding of basic figures/building blocks in tight wire,
2. demonstrate the ability to develop knowledge and skills in the circus discipline of tight wire, both technically and aesthetically,
3. reflect on and discuss the structure for progression in the further development of their skills within the discipline,
4. account for risks and discuss how sustainable training is carried out in tight wire.

Examination

(1001) The course is examined through a combined assessment of a practical presentation regarding learning outcomes 1-2 and a written assignment regarding learning outcomes 3-4, 7.5 credits, grades: Pass (G) and Fail (U).

The number of examination opportunities is limited to five.

Absence or failure to pass an examination may be replaced by another form of examination at the discretion of the examiner.

If a student has a decision from Stockholm University of the Arts regarding targeted educational support due to a disability, the examiner may decide on alternative forms of examination for the student.
